

FISHDONKEY TIP SHEET FOR TEAMS

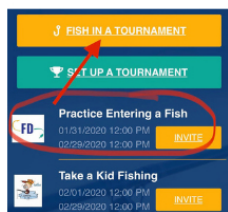

How the captain
will join:
Nestor Falls Musky Cup

1. Download the FishDonkey App (scan QR code)
2. Tap FISH IN A TOURNAMENT
3. Tap the magnify glass and type: **Nestor Falls Musky Cup**
4. Select the title and follow the prompts to JOIN NOW.

➔ Practice First

If the current Practice tournament doesn't already appear on your FD home screen, search and join Practice Entering a Fish. Get familiar with the app camera and video. **This ensures you've given the app the proper permissions.**

SHARING YOUR TEAM ACCOUNT

To maintain consistency, the person who registered your team should be the person to register the fish. However, if your partner is capable, and to have a back up phone, the captain can share their user/pass with the other teammate. Once they share the user/pass, the second person will need to download the app and sign in with those credentials. That way both teammates are depositing fish entries into the same account.

Captains, use the profile icon to initiate a password change if needed.

At the start time

Open the FD App.
Tap on the event title on the home screen.
Then 'Leaderboard'

Stringer

Each fish should be recorded one at a time as they are caught. Press SUBMIT after each fish entry. You can upgrade the entire time as the app will auto-cull for you.

➔ Digital Livewell Photos not showing?

The fish icon is your Digital Livewell. This is a record of all your fish entries. When you return to good reception, tap your livewell and leave it open until all fish are RECEIVED.

Make a Team Name

Tap the Profile symbol in the top right corner. Please edit the first and last name fields. Type the captain's full name in the FIRST name field. Type your partner's full name in the LAST name field.

First Name Field: Lloyd Druby
Last Name Field: Sam Anderson

Required Video

Video of the fish measurement in the water, then showing the release of the fish swimming away. Video capacity is 30 seconds each. You can take multiple videos if needed.
